

BB-BS200 21" DELUXE BOW SAW

SPECIFICATION

This bow saw is manufactured with file sharpened & induction hardened points for clean cuts & long lasting sharpness. The carbon steel cross cut profile blade allows speedy cutting of hardwood branches up to 135mm in diameter & the thumb screw tension adjustment helps to maintain the correct blade tension. The comfortable polypropylene grip will help to protect your knuckles & gives you control while allowing precision cutting.

Blade Length: 21"/530mm
