

BB-MT105

NON CONTACT PEN VOLTAGE TESTER

SPECIFICATION

This non contact voltage detector tester pen is manufactured with a buzz & flash alarm as a voltage warning alert. It is ideal for use in dark environments & will distinguish between live & neutral. It has a single multi use switch: press once for on, press again for light, then press and hold for off. It requires 2 x AAA 1.5V batteries (supplied).

Detection Range: 90~1000V AC CAT III

CE Approved
