

BB-WC300 1.5M X 8M WEED CONTROL FABRIC

SPECIFICATION

This cost effective, labour saving fabric is strong and durable, easy to install and will not fray. It is also environmentally friendly as it controls weeds without the need for chemicals. It will effectively help block weeds from growing & stealing valuable nutrients from your plants. It has excellent permeability allowing water, air & nutrients to get right to the root of your plants, creating healthy gardens & beautiful landscapes.

Approx Size: L8m x W1.5m **Anti UV**
